Re: Presentence Investigation Reports

Administrative Order No. 26 establishes a required presentence investigation report format that utilizes the core concept. The author should be familiar with the core concept before attempting to prepare a presentence investigation report. Lack of familiarity breeds long involved reports that are difficult to prepare and virtually useless to the sentencing judge.

Training will be provided in the near future at various locations across the state. Both judges and CSO's will be welcome at those training programs. If you are not familiar with the core concept, you may choose to use the format you are presently using until you have been adequately trained. The two books listed below have been distributed to each district at previous conferences; they explain the core concept and may be of some value to you.
